

FOREVER AQUA MISSION- 2017 overview

Forever Aqua Mission started its work in Uganda two years ago to provide **water** in the Northeastern parts of Uganda (**the Karamoja region**). Beside supplying water, we also preach the **gospel** of the Lord to the people, and help them with **food, clothes, mattresses, beddings, scholastic materials** and many other services/items. The region is affected by poverty and hunger to the extent that

more than a half of the people can't afford food and clothes.

The mission was initiated by **Marian** and **Rodica Volintiru** together with **Nicu Topan**. This mission has been supported mainly by the Romanian community, with the help of some Canadians and other generous people around the world.

Karamoja region is composed of Seven districts of which include **Moroto, Abim, Kotido, Kabong, Nakapiripiriti, Amudat** and **Napak**. The region often faces severe drought which dries the few water streams that are in the region, dries up the crops and pasture for the animals. The drought is so extreme that many people die or lose hop. This is the reason we preach the gospel: to encourage them and confirm to them that God can turn their miserable situation to a happy and joyful life through prayer.

For the last 2 years we have been able to build **13 water wells** of which 5 are ongoing: one in **Nakodokodoi village** in Kotido District, one in **Acherer village** in Moroto District, one in **Iri village** in Napak District, five in **Nyarikidi Village** Abim district, two in Nakapiripiriti District, one in Nakaperemoru, Kotido district, and two are going to be constructed in Lolo village, Amudat District. Each water well is used by approximately one thousand people per 24 hours (day and night). These few water wells are overcrowded and over used by both people and their animals. Hence, there is still much need to build wells in the region.

We have also been able to supply **food, soap, clothes, mattresses, beddings, scholastic materials** and other household materials to people in this region.

In one of our last trips to Karamoja, December 2016, we were able to visit all the water wells. We are glad to report that we **baptized 5 people** who accepted Jesus Christ for their very first time (Iriiri village - Napak district). They were very excited to see the water well and they believed God can turn their lives around.

We are very excited to see how God is working in these people and looking forward to the blessings that God has in store. May his name be glorified.

“May the Lord repay you for what you have done. May you be richly rewarded by the Lord, the God of Israel, under whose wings we have come to take refuge” (Ruth 2:12).
